

# **Orthopedics Billing Services**

Data-Driven Solutions for Orthopedic Revenue Excellence

## **Introduction**

Orthopedic practices face increasing pressure to manage complex billing tasks efficiently. With rising patient volume, evolving payer rules, and procedure-specific nuances, having a dedicated orthopedic billing partner like CHB is essential to maintain a healthy revenue cycle. Studies show that specialized billing services can increase collections by up to 30% for orthopedic clinics.

## **Orthopedic Billing Challenges and How CHB Solves Them**

Common issues include claim denials due to missing modifiers, payer-specific coding preferences, and poor documentation. CHB employs certified coders who specialize in orthopedic procedures such as joint replacements, spinal surgeries, and fracture care. We proactively handle pre-authorizations, code validation, and appeal management to minimize revenue leakage.

## **CHB Revenue Cycle Strategy**

Our RCM process integrates:

- Real-time eligibility verification
- Pre-authorization tracking
- Accurate CPT/ICD-10 coding
- Clean claim submission within 24 hours
- Denial tracking and A/R follow-up within 14 days

Practices working with CHB report 15-25% faster reimbursements and a 40% drop in denial rates.

## Tips for Orthopedic Practices

- Use detailed operative notes for all surgeries.
- Attach imaging reports when billing joint injections.
- Document time-based procedures precisely.
- Verify insurance before each procedure.
- Use modifiers (e.g., 50, 59, LT, RT) accurately to avoid bundling denials.

## Why Choose CHB

CHB focuses exclusively on healthcare billing, with dedicated teams for orthopedic practices. We offer:

- Customized reporting dashboards
- HIPAA-compliant workflows
- Transparent billing communication
- Ongoing education for staff on payer updates

## Case Snapshot

An orthopedic clinic in Texas partnered with CHB and saw:

- 27% increase in net collections in 6 months
- 38% reduction in aged receivables
- Less than 5% denial rate on average
- Weekly reporting and analytics support to improve clinical documentation
